1. The following is an examiner's statement of reasons for allowance: prior art of the record does not disclose applicant's claimed circular filament lamp including a filament supported within an envelope which includes a tube with its longitudinal axis formed as the major part of a circle, the ends of the tube terminating in pinch seals through which extend current carrying lead through assemblies connected to the filament, the pinch seals overlapping one another generally circumferentially of the lamp. The Examiner noted that closest prior art references are the one which are submitted by applicant, which do not disclose a circular filament lamp structure as specifically recited in applicant's claim 1.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Janssen et al, Suzuki, Morel and Konishi each are cited for showing a heating lamp structure.
